Poids Net : 1000g

La menthe FUN par excellence !

La naissance de FUN BLUE remonte au début des années 90. La distillerie A. BLACHERE, décide d'élaborer un nouveau sirop à base de menthe rafraîchissante.

Après des essais sur plusieurs variétés d'essences de menthe, la perle rare est trouvée. Une combinaison tenue secrète de plusieurs essences de menthe lui donne une singularité et un goût inimitable de CHLOROPHYLLE.

A consommer tout simplement à l'eau fraîche, dans des cocktails (unique par sa couleur) ou en nappage de glaces...

Ingrédients : sirop de sucre, essence de menthe, colorant E131

Valeurs énergétiques et nutritionnelles pour 100 ml de sirop non dilué

DID YOU KNOW?

op purs
ORE

Since the 1960s, we have been producing a blue mint syrup named Mente "Aurélie", which was a glacial mint syrup, a typical product of Provence as it was created in the 1950s by a distillery near Bagnols-sur-Cèze…

In the mid-90s, we decided to develop a new syrup based on mint, very refreshing, which would be a new version of our Blue Mint.

After numerous trials with multiple varieties of mint essences, the rare gem was found.

Fun Blue was created in 1995, with a beautiful "azure blue" color reminiscent of the color of a famous football team from Provence… and with a label that evokes the spirit of freedom through "fun" sports such as windsurfing, skateboarding, kitesurfing…

Very quickly, FUN BLUE became the trendy syrup among young people, and today it is the most popular blue mint syrup in Provence.
